

EPILEPSY

Ingalls Epilepsy Program

includes a team of specialists with expertise in evaluating and treating seizure disorders.

Services

Services available for on-site evaluation include:

- ▶ A dedicated clinical program coordinator who consults with patients and assists with every step of the referral and consultative process
- ▶ Physician specialists: neurologists, radiologists, neuropsychologists
- ▶ Advanced diagnostics and imaging (MRI)
- ▶ Neurophysiology (EEG, sleep studies)
- ▶ Laboratory testing
- ▶ Behavioral evaluations
- ▶ Nutritional evaluations
- ▶ Genetic testing

Referral Process

Services at the Flossmoor Family Care Center can be accessed directly by the patient, through physician referral or employer referral. After a referral is received, the first step in the process may be a consultation with a neurologist.

EPILEPSY

Treatment Options

Once the physician specialist completes a thorough evaluation, patients may be referred for one or more of the following services:

- ▶ Pharmaceutical therapy: anti-epileptic drugs, neurotransmitter regulators
- ▶ Complementary medicine services
- ▶ Behavioral counseling
- ▶ Nutritional counseling
- ▶ Genetic counseling
- ▶ Outpatient rehabilitation and therapy services
- ▶ Referral for surgical treatment: implantables, surgical ablation and resections, stereotactic radiosurgery
